

Emerging Technology Series Trajectory

2018 - 2023+

Technology Enablers

The first three sections will explore emerging technologies and catalysts, which will provide the foundation for the development of new solutions.

**Catalysts &
Building Blocks**

**Immersive
Media**

**Perceptive
Technology**

Novel Solutions

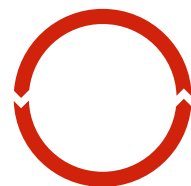

We then shift into novel solutions that incorporate these enablers, transforming lives and experiences, as well as critical industries like healthcare, transportation and finance.

**Sensor-Driven
World**

**Longer Better
Lives**

**The Experience
Continuum**

Economic Impact

Finally, we culminate this year's reporting with a view on economic impact, including a rapidly evolving labor force and new and unusual productivity drivers.

**Professions
Re-Imagined**
